Subject: Re: OU4 12th St. Landfill Revised Certification of Remedial Action/Construction Completion Report

Hi Kristi,

Regarding our response to the Certification of Construction Completion Report, Weyerhaeuser responded to the comments as requested by EPA. The consent order is with EPA and our comments were addressed to EPA as required.
Richard

Subject: OU4 12th St. Landfill Revised Certification of Remedial Action/Construction Completion Report

Hello Richard,

Thank you for the resubmittal of the OU4 12th St. Landfill Revised Certification of Remedial Action/Construction Completion Report. As I reviewed the revised document I noticed that many of the comments provided in my March 16, 2012 letter have not been addressed. Of highest concern are that a complete set of as-built drawings has still not been provided and that all components of the remedial action have not been presented. Regarding the missing components, the report needs to document in sufficient detail the previously completed emergency response actions from 2007.

Could you please provide some explanation as to why the MDEQ's comments have not been addressed or discussed?

Thank you,
Kristi
